

Real Time Tracking

July 4th, 2003

RTT Wins SMART Award

Real Time Tracking Limited, is proud to announce the official confirmation of our Government business award for innovation and technology.

The Department of Trade & Industry (DTI) SMART award is a reflection of our commitment toward investing for technical excellence, ensuring our products continue to deliver leading edge functionality and relevance for our customers.

The Secretary of State awarded the grant to enable Real Time Tracking to carry-out a project to examine the exploitation of a proposed theoretical solution for high-resolution visual 5D-tracking - the tracking of not only the spatial location and time of an object, but also, crucially, its activity.

Further announcements concerning this exciting potential new technology will be made over the coming months. For more immediate information please contact RTT media relations at media@rttracking.com
